We measure, monitor, and minimize our environmental impact across energy, water, waste, wastewater, hazardous substances, and biodiversity. Our environmental action plan includes a reduction in the consumption of energy, water, chemicals, and waste.

We comply with all labor legislation and treat our employees fairly. We are actively protecting and respecting human rights, and train all employees about how to identify and report signs of child exploitation and abuse.

We are against all forms of unlawful and unfair discrimination. All employees and guests are treated irrespective of gender, age, race, disability, sexual orientation, marital status, religious belief or otherwise.

We are proactive when it comes to supporting our local community. This includes things like giving information to guests about respecting the local way of life, ensuring they do not hinder community access to important resources and services, and supporting a local charity or community improvement initiative.

All hotel departments and employees participate in this effort. We also motivate and put pressure on our partners, suppliers, and local authorities to accept and implement similar practices.

We encourage our guests to practice the below during their stay with us. Simple things to do

1. Reduce, reuse and recycle. Make use of the three recycling bins in the rooms/ suites.
2. Save water. Reduce the flow of water or turn off water when not needed.
3. Save energy. Turn off lights and air condition when leaving the room.
4. Experience the rich culture, history and way of life. Our receptionists will be glad to provide with suggestions.
5. Taste the excellent local cuisine.
6. Donate to a local charity.
